

Company short presentation

deltamed

ambulances & special vehicles
deltamed.ro

Who are we?

Regular situation : regular needs

Special situation = special needs

Volkswagen AG

Mercedes Benz

other well-known brands

Deltamed

- Founded in 1997, as a private Romanian company.
- We started on local market of emergency medicine, mainly with public hospitals .
- In 2000 we made a switch and became interested in integration of the equipment inside and together with the vehicles – ambulances.
- In 2007 we started to build ambulances in our actual location – kit-based production, leading to market leader in production of ambulances in Romania
- In 2010 we started to diversify the production with our own solutions for fire fighter vehicles and adding every year a new product, making the transition from an ambulance manufacturer to a fully developed body builder.

Now, we are proud to be versatile and experienced enough to build almost any mobile solution.

LOCATION

In the heart of Transylvania, close to Cluj-Napoca, the second largest city of Romania.

Headquarters

Main factory and office buildings – in Gilau, Cluj county, close to A3 Highway

Well connected by road
(if the Romanian
government will finish
the highways 😊)

Also well connected by
